Hi Developers at TechSolvers,

When reviewing your app, Cambialy: Tasas BCV y USDT (com.cambialy.app), we found that it doesn't comply with one or more of our Google Play policies, which has affected your app's status.

	App Status: Rejected Changes to your app weren't published because of the policy issue(s) listed below. If you have an older version of your app, it will still be available on Google Play. You can learn more about this issue and how to fix it in Play Console. Go to Play Console
	Issue found: Violation of Loans policy Your app contains content that isn't compliant with the Personal Loans policy. Your app requests access to one or more of the following permissions: Issue details We found an issue in the following area(s): Permissions: "App Split Bundle [1]: READ_EXTERNAL_STORAGE, WRITE_EXTERNAL_STORAGE" To resolve this issue, follow these steps: Remove the use of the above-mentioned permissions from all version codes within the submission. This includes both production and testing tracks. To make APK/App bundle level updates, follow these steps:

1. Go to [App bundle explorer](#) and search for the noncompliant version codes. Click into the details page to navigate to the track(s) with the policy issue (Closed / Open testing / Production). Click **Manage track** > **Create new release**.
 1. If the release with the violating app bundles/APKs are in a draft state, discard the release.
 2. Otherwise, add the policy-compliant version of app bundles/APKs.
 3. Make sure that the **noncompliant version** is under the "Not included" section of this release.
 4. Enter a release name and click **Save**. Once saved, click **Review release**, then proceed to roll out the release to 100% and completely deactivate the noncompliant APK.
2. If the noncompliant versions are released to multiple tracks, repeat step 1 in each track.
3. You can check the [App bundle explorer](#) page again and the noncompliant version code should show as "Inactive" and show "0 releases" in the details page.

About the [Personal Loans policy](#)

Personal loan apps, apps with the primary purpose of facilitating access to personal loans (for example, lead generators or facilitators), or lines of credit, accessory loan or credit apps (loan calculators, loan guides, etc.), and Earned Wage Access (EWA) apps are prohibited from accessing sensitive data, such as photos and contacts. The following permissions are prohibited:

- READ_EXTERNAL_STORAGE
- READ_MEDIA_IMAGES
- READ_CONTACTS
- ACCESS_FINE_LOCATION
- READ_PHONE_NUMBERS
- READ_MEDIA_VIDEOS
- QUERY_ALL_PACKAGES
- WRITE_EXTERNAL_STORAGE

Apps that utilize sensitive information or APIs are subject to additional restrictions and requirements. Please see the [Permissions policy](#) for additional information.

Submit an Appeal

If you believe that our decision is incorrect, you can submit an appeal. It may take up to 7 days to receive a response, but it occasionally takes longer.

[Submit an appeal](#)

If you've fixed this issue, send changes to your app for review on the [Publishing overview](#) page in Play Console.

Learn More

To learn more about the enforcement process, [visit the Help Center](#). For the latest updates on Google Play's policies, watch Android Developers' [#PolicyBytes](#). Choose your preferred language by changing the audio track in the settings.

Thanks for your continued support in helping to make Google Play a positive experience for both developers and consumers.
